

## Wollongong Infant Learning Lab Parking

We will kindly ask that you park in an available space within the Early Start Restricted Parking/Service Area. The directions to the parking area are detailed below.

Enter via the basement car park drive way. Note the basement and service area sign.

Drive past the boom gate on your left. Drive straight ahead and in to the restricted parking area which is at ground level.

Park in any available space in front of the bins on the rear wall of the Early Start building. A researcher will be waiting here to provide you with a parking permit and assist you into the lab.

To ensure there is available space for the next family, we ask that you vacate the parking area within 10min of completing your session.

We sincerely apologise for any inconvenience this may cause to those planning to enjoy the Discovery Space following your research session.
